MOOSE COLLECTOR FOUND NOT GUILTY

Jury Decides That C. H. Walker Did
Not Embezzle Funds of
Fraternities Order.

Ogden, Oct. 26.—After being out for less than 15 minutes, the jury before whom the case of the state against C. H. Walker was heard in the municipal court on Tuesday, returned a verdict of not guilty. Walker was charged with embezzling funds of the Moose order, for which he worked in Ogden for a number of months as organizer and solicitor. The complaint alleged that Walker had collected \$5 from nine different applicants and applied the same to his own use. All of the applicants named in the complaint testified to having paid Walker for their initiation and for a time things looked black for the organizer, who was not represented by counsel. However he displayed an accurate knowledge of legal procedure and after the complaining witness, F. Kohlenberg, deputy supreme organizer of the order, had been on the stand, it became evident that the evidence was very favorable to the defendant. The alleged embezzlement took place during the month of June of this year and Walker was arrested on Aug. 11. Of the \$5 paid by each applicant, Walker was to receive \$2 and Kohlenberg, whose headquarters are at Salt Lake, was to receive \$3. At the time Walker was discharged, he turned over to Kohlenberg and his Ogden representative, L. J. Packer, several applications for parties who have since become members of the organization. Walker claimed that he was to receive his commission on all applications which resulted in business to the order and although Kohlenberg denied this at first, he was later compelled to acknowledge that such an understanding had been arranged with Walker. The fact that a number of applications which had been secured by Walker were not taken before these parties became members of the lodge, was brought out, and evidently had much to do with the verdict.

Utterly Wretched

Nervous Prostration Long Endured Before Remedy was Found.
Miss Minerva Reminger, Upper Bern, Pa., writes: "For several years I had nervous prostration, and was utterly wretched: I lived on bread and beef tea because my stomach would not retain anything else. I took many remedies, but obtained no relief until I took Hood's Sarsaparilla, when I began to gain at once. I am now cured." Pure, rich blood makes good, strong nerves, and this is why Hood's Sarsaparilla, which purifies and enriches the blood, cures so many nervous diseases. POLICE COURT RECORD.

Ogden, Oct. 26.—Irving Ewing was arraigned before Judge Murphy in municipal court on Tuesday on the charge of assault and battery, committed on Martin Smith on Oct. 18, to which he entered a plea of not guilty. Smith testified to having had a dispute with Ewing over the sale of a cow and stated that the latter had struck him several times in the face. Smith went into the saloon at Five Points, near the scene of the quarrel, to get water with which to bathe his face but soon discovered he was in the wrong place for that particular variety of liquid. As he was leaving the place, Ewing again assaulted him, knocking him to the ground. The court imposed a fine of \$10, which was paid.
E. Chase, one of the city's star applicants, was again present on the charge of vagrancy. Detective Wardlaw testified that the old man had been brought in because of the approaching cold weather and further stated that it was an annual custom to give the veteran a few days' rest at this time of the year and to supply him with new clothing that he might better be able to face the rigors of winter. The court imposed a sentence of 30 days and the pioneer left the court room expressing his gratitude.
Fred Henderson, J. W. Murray, Pat Murphy, Tom Laler, A. W. Austin, Fred Stewart, May Francis and Mary L. Burton were each fined \$5 for drunkenness.
John Wilson was a cripple and not able to work on the city streets so a suspended sentence of 90 days was imposed. Wilson was a vagrant.
Herbert Spencer, not the philosopher, but a "has-been" prize fighter, admitted the charge of vagrancy and was sent to jail for 10 days.
John Riley knew nothing of the charge against him of begging and was held under \$10 bonds until the arresting officer could be located.
Chas. Toro was given five days for vagrancy.

HOW TO GET FAT

Use Samose. Says Z. C. M. I. Drug Dept. and Put On Good Flesh.

The almost universal interest in physical culture is the best evidence that can be offered as to the need of a simple and scientific method of making thin people fat, increasing strength and restoring health.

Athletes, when carried to an extreme, often result in straining the vital organs. How much better it would be for the average person to regain health, strength and flesh by using Samose. This flesh forming food is assimilated as soon as it enters the stomach; it helps the organs to assimilate the food and extract the flesh forming elements; it builds up the muscles and rounds out the limbs into shapely plumpness.

Samose has been so successful in making thin people fat and restoring the weak and run down to strength and health that Z. C. M. I. Drug Dept. the popular druggists sell it under their personal guarantee to refund the money if it does not benefit.

An offer like this certainly shows remarkable faith in the powers of Samose to do all that is claimed for it. No one should suffer any longer from a thin, run-down condition, now that Samose's remarkable powers are known.

ORDNANCE PLANS FOR EFFICIENT ARMAMENT

Washington, Oct. 26.—Profiting by its experience in the Spanish-American war, the ordinance bureau of the war department has been working up an efficient system for the armament and equipment of the field armies of the United States in the event of war with a first-class power. According to the report of Gen. Crozier, chief of ordinance, this work consists in utilizing the experience of the department and its officers who have served as ordinance officers of troops in the field, to determine, as far as possible, the things necessary to be done in the event of such a war.

The plans are based upon the following premises:
That the line of the regular army will be immediately increased to its maximum enlisted strength as provided for by law.

That the entire organized militia of the country will be mustered into the service of the United States at its full war strength, in advance of any volunteer forces.

That sufficient arms, equipment and ammunition will be on hand, either in the hands of troops or in store for the enlarged regular army and the enlarged organized militia with a surplus for an additional force, which surplus

will be greater in some articles than in others, being designed to be greatest in those things which take the longest time for their production.

That purchase and manufacture of additional ordnance and ordnance stores will be immediately accelerated and that all United States troops—regular, militia and volunteers—will be fully armed and equipped at camps of concentration before being sent to the seat of operations.
